middle east consulting & trading GmbH

ABOUT US

m.e.c. (middle east consulting & trading GmbH) was founded in 2003 by Mr. Peter Meyer, who brought with him many years of experience in B2B export and international trade.

On January 1st, 2013, m.e.c. merged with DESTEC (established in 1998 by Peter Meyer). This strategic move was designed to consolidate the activities of both companies, strengthen their market position, and create synergies through their complementary services.

In early 2014, the company became a second-generation family business when his daughter Kerstin and son-in-law René joined the team. Both came from business backgrounds and contributed valuable expertise and several years of professional experience.

Our customer base ranges from trading houses and shipowners to industrial enterprises and naval organisations. We operate in the Middle East, Southeast Asia, Southern Africa, Canada, and across Europe.

PRODUCTS & SERVICES

We specialise in the supply of technical equipment and spare parts for:

- Marine industry
- Power generation
- Oil and gas fields
- Cement industry
- Construction vehicles
- Hospital and laboratory equipment

In addition to product supply, we offer:

- Supply chain management
- Global purchasing services
- Handling & storage in our Hamburg-based warehouse
